Chorus:

LCA, it's in our DNA,
 From Mingulay to Dalgety Bay,
 LCA and VIA,
 It's in our DNA.

Verse:

Round the hills we go,
 With VIA in hand,
 While round the turbines go,
 Above us on the land.

On the coastal parts,
 Square cages in the sea,
 Does VIA impart,
 It's round they ought to be?

On the lowland plains,
 The towns they always grow,
 Does LCA explain,
 Where houses ought to go?

Wild places too,
 Where human tread is low,
 We map them through and through,
 But still these places go!
